

7000-Busby[®]

LCD Arm w/Integrated USB Hub

The 7000 LCD Arm suspends your flat panel above your desk. You can quickly raise and lower the monitor with just one hand—easily position your monitor at an ergonomic viewing angle. The arm also eliminates the monitor footprint on your desk, allowing you to reclaim your desktop.

Combined with Busby[®], you no longer have to crawl under your desk to reach your PC's USB port! Busby[®] places USB ports right at your fingertips, where they are integrated into your flat panel monitor mount. Busby[®] provides convenient access to charge and power all of your USB-enabled devices, without consuming additional desk space.
