

**WINSTON WORKSTATION®**

**Energizing your body.  
Inspiring your mind.**

Winston Workstation® with focal depth adjustment now offers another way to be healthier during your workday.

Ergonomists recommend that monitors be at arms' length away from where you are sitting to avoid unnecessary eye strain.

Winston Workstation® with a focal depth adjustment allows users to increase health and productivity during the day while maintaining the ergonomically recommended distance from the monitors for optimal ergonomic comfort.

**FEATURES**

- Independent movement of the monitor arms allows for easy focal depth adjustment of the monitors and 180 degrees of left-to-right movement.
- Designed to accommodate standing work without the distraction of unwanted movement.
- Large surface and convenient storage tray allow you to bring all necessities with you when you stand.
- Retrofit your existing desk into a healthy workspace with three easy mounting options: freestanding, desk clamp or thru mount.
- Features a 17" range of vertical height adjustment and a locking cylinder to keep the workstation in place. No manual adjustment needed.
- Cable clips in the column and beam keep the cables organized and out of the way.
- Winston is assembled in the USA using components created through a green manufacturing process.

\* For optimal performance, select the model that will support the total weight of your monitor and all items that will be placed on the Winston work surface. (keyboard and mouse typically total 2 - 4 lbs)

Foldable arms allow instant focal depth adjustment.

Independent arms allow easy monitor repositioning—share your screen without sliding the base.

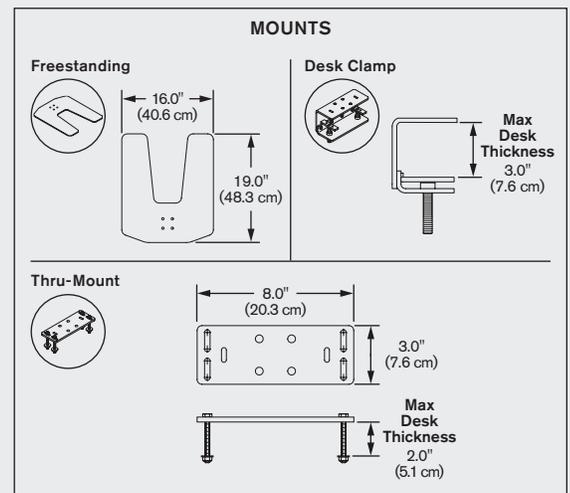

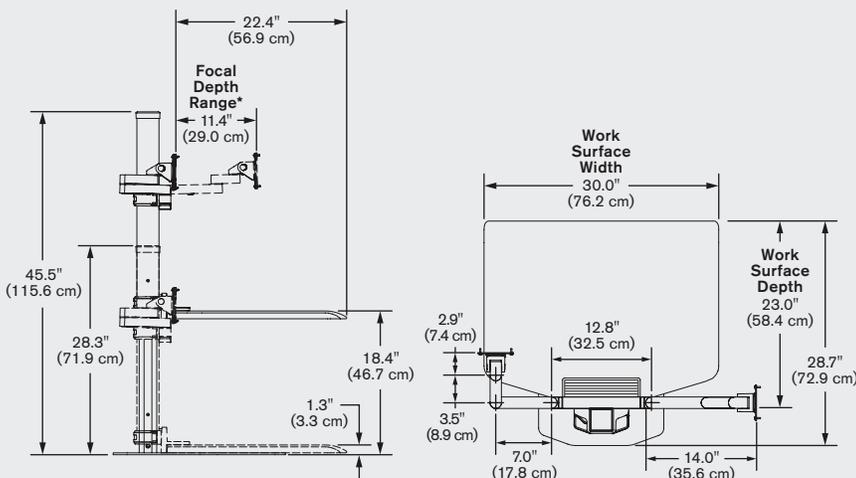

Integrated cable management keeps your desk clutter free.

Expansive work surface features a storage tray—keeps items within reach.

## CAPABILITIES

\* Based on typical 24-inch widescreen monitors.
