

Gaming Table Arms

Models 3520 & 7020

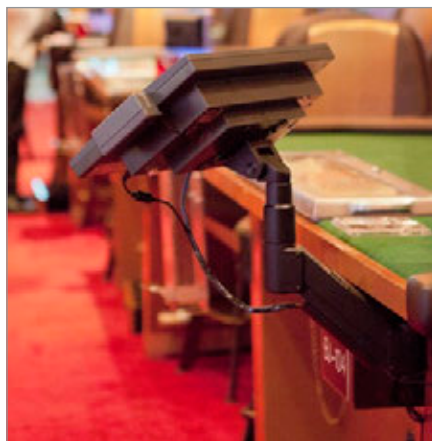

Innovative works with leading casino operators to develop mounting solutions for technology devices in the gaming environment. Table-top kiosks and touchscreens need not occupy valuable floor or gaming table space—Innovative's floating mounting arm mounts to the underside of the table. The screen may quickly be moved to a comfortable viewing height and angle, and then stowed when not in use. Consult with Innovative for space-saving solutions to your mounting challenges.
