

9500 SERIES

The 9500 series sets the bar for flexibility, reliability and durability. With four different finish combinations and a sleek look, you can be confident that this table will complement your workspace. Your choice of options, including four table top sizes, makes the 9500 series adaptable to your specific requirements and suited for any environment.

FEATURES

- Available in four table top sizes and four finishes.
- All tables feature a 29" fixed height.
- Furnished with 1" diameter stainless steel, rubber cushioned glides to maintain stability.
- Cast iron support structure between table and leg for a stronger connection.
- Table top comes with a standard square edge.
- Machine cut column for a level fit, ideal when moving and joining tables end-to-end.
- Welded end caps are polished for a smooth appearance.
