

product+ Breakdown

EVO

By Innovative

Designed for exceptional performance, EVO saves space and offers an ergonomic solution in a sleek monitor arm. Powered by Better Balance technology, EVO supports a monitor with constant force, ensuring smooth movement across the arm's range of motion. It's easier than ever to mount a flat-panel monitor while complementing any workspace with EVO's modern design. With that, EVO received a 2017 Red Dot Product Design Award and a Best of NeoCon Silver 2016 for its sleek form and superior function. Read on to find out how EVO breaks down. [ihs](#)
